

GREEN · BAMBOO · DASSO

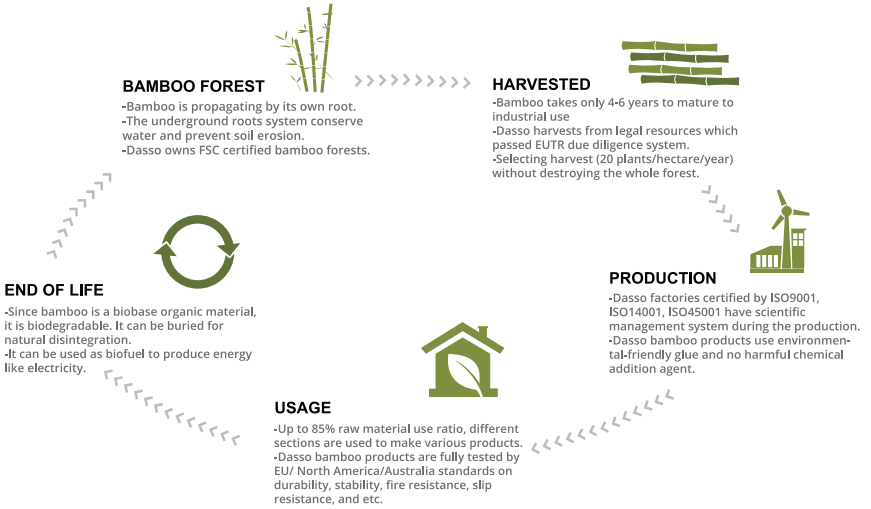

We are facing a significant global warming and rapid depletion of resources. It is our duty and responsibility to choose green and renewable resources and reduce carbon emissions.

BAMBOO FOREST CONTRIBUTES TO GLOBAL CARBON CYCLE

SUSTAINABLE LIFE CYCLE OF BAMBOO PRODUCTS

dasso Traditional Bamboo
EPD No.: S-P-01925

dasso Strand Woven Bamboo
EPD No.: S-P-01926

dasso Ecosolid Bamboo
EPD No.: S-P-01927

dassoXTR and dassoCTECH
EPD No.: S-P-01928

Dasso bamboo products have been EPD certified, indicated a friendly environmental impact during their entire lifespan (35-40 years).

Carbon footprint in each life stage of bamboo products (kg CO₂/M³)

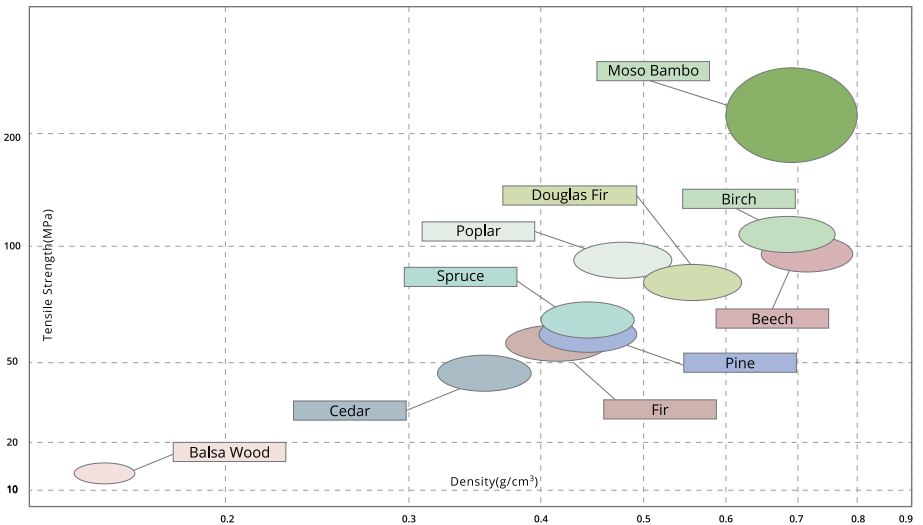

The left figure shows different stage of bamboo product contribute to the main environment impact with different shares, the total emission of CO₂ is negative which means "climate positive". The product stage include biological carbon sequestration and all production process.

Carbon footprint bamboo VS other material (kg CO₂/M³)

Bamboo raw materials have good mechanical properties. They can be processed and made into a variety of products with superior properties that are widely used in various applications and fields.

Material mechanical property comparison between bamboo and wood

*compare to other wood material, bamboo has the highest ratio of intensity/density, has the best mechanical property.

Mechanical property comparison between dasso bamboo exterior board and other exterior wood board

items \ species	dassoXTR	dassoCTECH	IPE	Merbau	Scots Pine
Density (g/cm ³)	1.15	1.2	1.1	0.815	0.55
Compressive strength (Mpa)	100	93	90	73.5	42
Janka hardness (N)	16,992	17,659	15,620	7,620	2,420
Modulus of elasticity (MOE) (MPa)	19.1	16.7	22.07	15.93	10.08

Dasso Bamboo Products

After decades of development in bamboo industry, dasso has the advanced skills, technology (patent owner) and automatic manufacturing equipment. We have gathered talented people to develop a management system that focuses on production and quality control. This enables dasso to provide bamboo products with consistent superior quality for all kinds of applications.
